## 11-2 Experimental Probability

### Lesson Quiz: Part 2

Sandra spun the spinner above several times and recorded the results in the table.

Color	red	blue	green	purple	yellow
Freq.	4	2	1	2	0

2. Find the experimental probability that the spinner will land on blue.  $\frac{2}{9}$

3. Find the experimental probability that the spinner will land on red.  $\frac{4}{9}$

4. Based on the experiment, on which color will the spinner most likely land? **red**
